

Dear Colleague,

We are pleased to invite you to a breakfast roundtable discussion on palm oil sustainability and biofuels that we are hosting together with the Malaysian Minister for Plantation Industries and Commodities Datuk Peter Chin and Indonesian Agriculture Minister Anton Apriyantono on **Thursday 11 September** from **08:00 to 09:00h** in the **Members Salon at the European Parliament**. This will be an opportunity to exchange views on the effect of EU biofuels policies on third countries and the workability of sustainability criteria on the ground. Malaysia and Indonesia represent two key biofuel feedstock exporters. The Ministers will be accompanied by senior palm oil industry representatives and scientists.

We would very much welcome your participation at this dialogue. If you would like to register, please confirm by email to [sabinekayser@qpluseurope.com](mailto:sabinekayser@qpluseurope.com).

Best regards,

**Miroslav Ouzký**, Chairman of ENVI, European Parliament
